

Your Needs & Inspirations - how to simplify Your order

To proceed with order easier for both of us whats very helpful is proposed form which is just an idea of course, for future talks:

Color inspiration Inspiracja kolorystyczna:

My color inspiration, sky blue - azure water - white/creamy beach

There are shades I like. I would stick to those brighter and more pastel like. I will also admire adding some not dyed yarn. This quite „fat, bubbled yarn” also may be not dyed to add some effect. Wrap does not need to have so many shades as on pictures of course - its just an example to show how color I like the best.

Another examples of colors I like:

I would like colors in my wrap to diffuse and so they will be gradient, just some clutter and shambles will occur. I do not like straps. There is some example coming from your site to express my ideas regarding this untidiness I am looking for. It will perfectly refer to my beach inspiration.

Weaving:

The pattern I like the best, picture:

I would like my wrap to be woven loose with use of some irregular pattern.

Wrap Length: 4,6 m

Fringe: I like them but let them be no too long... Just about 10 cm going.

Date of realization: I would like to have my order ready not later that mid of December
